Re: Docket #L-00000B-15-0059-00170

Representatives from Intel Corporation and John Porter, Sun Lakes HOA President, met on April 9, 2015 to discuss the results of the feasibility study in regards to the RS-28 Substation location. Intel has concluded its feasibility study and determined that the centerline of the easement can be located at 650 feet north of the Sun Lakes wall. If the easement is moved further north from 650 feet, it will have an impact to Intel's Preliminary Development Plan Amendment (PDP) 14-0007 and future growth of the Intel Ocotillo site. Intel will work with Sun Lakes on the mitigation plan that will allow funding for landscaping.

Paul Callaghan
Corporate Services, Site Manager

cc: John Porter, Sun Lakes HOA Steven Cobb, Salt River Project
